D. B. ROBERTSON, Ed. and Prop. MRS. C. B. ROBERTSON, Bus. Mgr.

Saturday, DECEMBER 1,

One of the twin Risdon pumps at Camp 3, Kihei was "turned up," as they say in the South, with direct from the rock without any over" for the first time on last Saturday and worked to a charm, a former resident of Nome who had process of parification and also a demonstrating that it will handle eight million gallons of water left his partner in charge of a house quantity of the rock itself as it comes every 24 hours. The other 'twin' will be put in at once, with a and lot there. He gave Messrs, out. capacity of ten million gallons every 24 hours. The combined cas Murphy and Shaw written permispacity of this double pump will irrigate about 2000 acres of fibest angar land on Maui, with water obtained three miles from could make more permanent arrangethe sea beach. 10,000 tens of sugar is a modest estimate of what ments. Therefore, on landing at 2000 acres of good cane land will produce. Kihel stock is a good tayestment, and Mr. Dillingham told the plain, unvarnished be the said that the Kihei Plantation is the peer of the surprise to learn that the partner Oalra Plantation.

MAUI BLUE BOOK

Makee, Kaboohalahala,

Hoyselden, Deputy Shoriff

M. Saffery, Captuan Police.

No one could witness the splendid training of the children at then the property had changed the percentage of water and gypthe Wailuku grammar school last Saturday night without being hands no fewer than five times. This sum is a little higher, while that of struck with the antitude of children to learn intelligent droll work. Is an illustration of how matters are the acid is a little lower, than the This fact should be taken advantage of, and children should be run up there. The slightest oppor- formula, and that there is but 32-100 bught mechanical skill and precision in manual tasks during their plastic age. With industrial schools and enthusias ic teachers, children could be taught the radiments of many of the mechanical arts and trades, and could at the same time be trained not only to do and know things, but also to do and know things in the right way.

0 9 4 Friend Gulliver of the Advertiser, while suffering from evere hydrocephalle attack hat week, referred to the Lilliputic d Walluku as being inhabitants of another Venice. As an eary lesson in primary local geography, we would call his attention of the fact that Wailaku is a city set on a hill, as far above his water mark as it is above feeling hurt at flings from a tide wal lown. The next thing we know, Hilo will be reproaching us for our damp less.

Judge Humphreys is foolish almost to the point of silling a allowing houself to be rattled by the Honolulu press. Perha s he is right so far, although it is difficult to tell, after reading : ii that the different Honolulu paper say about the matter. In any event he might well copy the sang froid of the district magisrate of Wailaku, who pursues the even tenor of his way, regardless of the criticisms of the Maul press.

The Independent asserts that Lobenstein and Kepcikai are to be sent to Washington to unseat Bob Wilcox. Doubtful, Nevertheless, we would like to see Judge Kepokai sent to Washington. for he is the best antidoto to Wilcoxism that we know of, and other scheme is to leave your build. There should be given, says the Would do the Islands real service in the matter of securing benesicial legislation. Hon. San. Parker should be induced accompany working a little every night, until it animals in the fields and farm yards,

It is a source of slacero congratulation to learn that the school book trust has been temporarily turned down in Honolule. It would be r fatal mistake he waver to suppose that the question is Nome last week to spend the winter to places in the neighborhood are settled. The book ring has just begun its fight, and nothing but here, speaks encouragelegized that recommended for the purpose of sternal vi; tance will be the price of our final deliverance from country and believes it has a great awakening and quickening the ob- Strawberry Soda the machinations of the book trust.

Cannot the high sheriff of the Islands defer opening that the large majority of all gold heaters ganuine love for the country and

stone quarry temporarily and spare say 50 long termers for a few in that land spend their money and the country pursuits." months to repair our washed out reads? We have excellent full got little or no return for it. Capital accommodations and limitiess barrels of pol, and no cheaper there, as elsewhere, gobblestup the means could be found to renovate the pull road between Labaina and Wailuku.

Oriental labor is gradually disappearing from the Islands and its place is being taken by other classes. Although this will work a temporary hardship to some of the plantations yet it seems probable that white labor will be secured to take its place, and the general welfare of the Islands will be increased a hundred fold by the change.

Colonel Samuel Parker will and must eventually withdi-w ils assertion that he will have nothing more to do with politics, because it is to just such men as he that the Hawaiian themselves must look to lead them out of the trouble into which Bob Wilcox's four miles in length, across the aforepresent victory has betrayed them.

There are utany otherwise intelligent Hawaiians who he e not even yet lost hope that the monarchy will be restored, or at least that annexation will be declayed off. Until they fully obabuse their minds of that idea, they will fall over their feet eve ;

The punishment meted out to China by the allied powers is severe, but not needlessly so, and in the end it will prove an unmeasured clessing to the Chinese and to China. The abolishment of the Ts ingli-Yamen may be regarded more as a reform that punishment

political move they make

Bob Wilcox says that he feels quite friendly toward the present republican administration, and that he will use his influence to strengthen its hands on the Islands. This causes us to breathe a sigh of relief, for we were airsid he would do the other thing.

BACK FROM NOME

are Run Up There.

April 30, 1900. Dan J. Murphy of this place and Jack Shaw of Calaveras county, left San Francisco for Nome, Alaska. The vessel on which Hana did not arrive at their destination will form a company to exploit his until June 9th. The delay was caused find. by lee, which hemmed in the ship Hand and took it adrift. There appeared hundred miles southwest from to be no great danger and all on Albuquerque, and is virtually a board enjoyed themselves with music, mountain of almost chemically pure dancing and social games as best plaster of Paris. Mr. McClure has they could during the tedious delay. samples of the mineral in the shape sion to camp on his lot until they made by one of the best mineralogists Nome, they repaired to the premises and presented the written permit 20,90 water, gypsum 32,60 and to the occupant. Judge of their sulphuric acid 46.50. He then gives left in charge had, months previous. sold the house and lot, pocketed 21.40; gypsum 32.86 and sulphuric tunity is taken advantage of to get of one per cent impurities in the another's interest. Another incident will further illus-
